Dear breeders/friends of the frill pigeon,

The European frill meeting takes place this year in **Hungary from 15.11.2019 until 17.11.2019** in the lovely town of **PÁPA** (one our driving westward from Budapest).

Such east located EMC show has never been organized before. So this circumstance gives the possibility to participate to all those breeders who has had difficulty to visit the west European show places of the former years. The local sport hall situated in a calm park area. The hall has plenty of natural lights, and enough place for 2.000 individual cages, or more! Therefore **no limit of the entries** and **all** frill breeds are welcome!

We would like to host following collections:

- The usual **EMC collection of the short beak frill breeds** completed with the annual club show of the Hungarian Frill Club.
- **International east- European show for all the middle long beak frill breeds.** We strongly count on all those isolated breeders of the east European countries, same as we hope that the west European clubs will represents themselves! Let's come together!).
- **Promotion of the rare, local national frill breeds** of any country, and **new frill breed introduction.** (Entries of this section will be not judged, and no prices will be given, but would be a very good international promotion possibility!).
- **Annual Club show of the local Club** (Pigeon, Poultry, rabbit, exotic birds).
- Section for **promotion of the rare Hungarian animal breeds** (we try to collect breeds as much we can)
- **Pigeon wardrobe/ sale department.**

The judges can further distribute a full package of prizes. Of course, we are grateful for each donated price! All further information can be find in the attachments and at our site.

We would like to organize a great show that you remember with joy. But therefore we need your entries, your participation, and perhaps you as frill breed judge!!! Please, make yourself free for the 3rd weekend of November, and visit Hungary.

If you don't want a hurry tour – return within those three days, extend your stay and bring your friends or family. In case of demand, we can arrange animal guarding before or after the show, we are pleased to help you!

Hoping we can welcome you in Pápa,

Sincerely,

Arpad Cseplo - Hungarian Frl Club
